# Agenda Points

- Lighting Controller Function Block
- RGBW 24V Dimmer
- T5 Input
- Lighting with motion
- Parameters

# Extensions for lighting

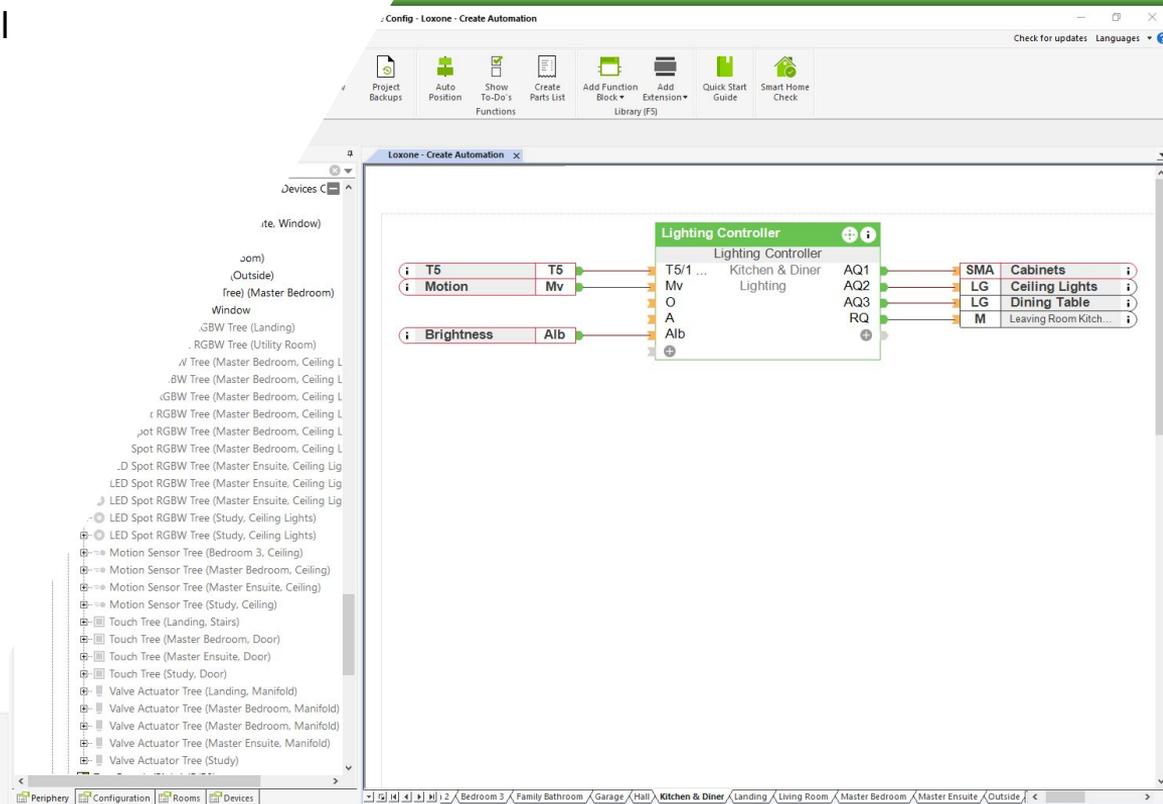

# Loxone Lighting Products

# Lighting Controller

This Function Block enables the control of multiple light circuits with lighting moods (switched, dimmed, RGBW).

# T5 Inputs

# Lighting with motion

# Parameters

- **T - Brightness Threshold**

The maximum brightness up to which the Motion Sensor will bring on lights

- **TH - Presence Detection Timeout**

Timeout when lights have been brought on by the Motion Sensor

- **MT - Absence Detection Timeout**

Timeout for absence detection, i.e. will turn lights off even when they have been switched on from a light switch.

- **Ti - Motion Suppression Duration**

Duration for which the motion sensor is disabled after lights are switched off via app / light switch
